

Be **Responsible** today
for a **Better Tommorow!**

We are a group of companies an authorized Recycler, Dismantler, and also who handles hazardous waste in scientific ways which were set up in 2017 to tackle the growing problem of E-waste in India, whilst striving to maintain our environmental management standards as set by E-WASTE MART. Our company is a group of companies that are licensed to dismantle, recycle, and handle hazardous waste by the Central Pollution Control Board, Ministry of Environment, Forest and Climate Change, Govt. of India.

In order to carry out the mission in a scientific way, we are working with our associate companys., Our team comprises professional IT remarketing and E-waste disposal technicians who are experts at secure E-waste solutions including data deletion, IT asset management, and disposal services, in an environmentally sustainable manner. E-WASTE MART guarantees the highest security levels for its clients.

We hold full responsibility for all your assets trusted to us and ensure full control of your data security and operate with the highest standard of care. You won't need to worry about the loss of your data during the implementation of our work procedures. After taking your IT Equipment (Hardware, Servers, and Hard Discs), we hold full responsibility in regard to the safe and secure disposition of these assets and the data stored in them.

Due to the safety and reliability of our work processes, your data won't be accidentally lost and revealed to any third parties at any stage of IT asset disposal, from the moment of taking the assets from you to the complete disposal of these assets.

OUR

VISION

One of our main objectives is to contribute to a clean and healthy environment using an integrated approach to waste management and our vision is to become the preferred waste management company for the region and to develop a global brand that will partner with our stakeholders and communities to manage & reduce waste from collection to disposal while recovering valuable resources and creating clean, renewable energy.

OUR

MISSION

Our mission is to proactively anticipate the increasing demand for assistance in the Field of waste management, completely with local and national laws and do business in an environmentally friendly manner within an integrated waste management framework. To maintain a steady but portable growth based on our core values by providing value for money to the clients and communities that we serve through our people.

WHO WE ARE

E-WASTE MART provides customer centric technology solutions and services through the best environment friendly practices. The only company that provides such a wide range of IT solutions and services expanded and penetrated.

WHY CHOOSE US

E-WASTE MART is in business to help companies, governments, and consumers to recycle their electronic waste, facilitate computer in scientific ways recycle and ensure data security during the E-waste recycling process.

OUR EXPERTISE

- We are at the forefront of developing and implementing new strategies to protect our natural resources.
- We make insightful recommendations that promote positive change.
- We follow government norms and proper scientific ways to dismantle & recycle your e-waste.
- We value innovative policies and practices that promote sustainable communities.
- We use web-based technology to achieve maximum outreach in an efficient manner.
- We explore new techniques to address the waste and material streams.
- We train and educate our employees on a regular basis.

OUR SERVICES

- E-Recycling is a process of Collection, Segregation, Dismantling and Refurbishment. The e-waste collected by "E-WASTE MART" is taken to a central location from where a Segregation team collects all of it.
- This Team has a state-of-the-art recycling facility with equipment's that handles e-waste segregation & disassembly in a scientific manner.
- All of the e-waste collected by them is treated as follows:
- Old and usable electronics are refurbished for boosting education and livelihood in rural areas.
- Hazardous materials like lead, mercury, cadmium, etc. are shipped to government-run CHWT facility (Common Hazardous Waste Treatment) for safe and sound disposal in an environment friendly manner.

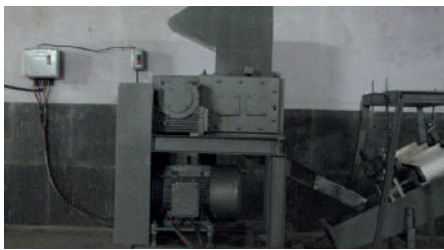

E-WASTE MART also offers advice on all aspects of waste management and offers a wide variety of tailor-made products and services. Our ultimate goal is to assist the customer in keeping our environment clean, which in turn helps EWASTE MART accomplish its mission.

OUR

RECYCLING FACILITY

- ❖ Copper/brass Melting Furnace
- ❖ Incinerator
- ❖ Ball Mill
- ❖ Wire Stripper
- ❖ Smelting Furnace
- ❖ Venturi Scrubber
- ❖ Fume Hood
- ❖ Gold Silver Melting Machine
- ❖ Tin Recycling Machine
- ❖ Effluent Treatment Plant

PCB RECYCLING PLANT

FIBER PLASTIC BRICKS

INCINERATOR

SMELTING

The furnace again runs on LPG gas like our other systems.

The furnace has a fume hood above it to scrub out any gases.

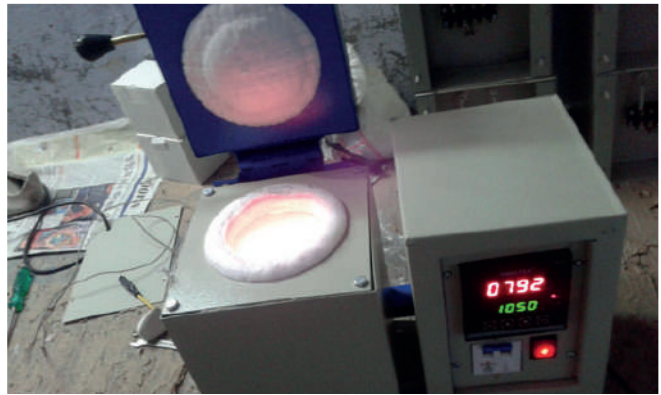

CENTRALIZED
SCRUBBER
SYSTEM

LABORATORY EQUIPMENT

FUME HOOD
WITH SCRUBBER

GOLD AND
SILVER MELTING MACHINE

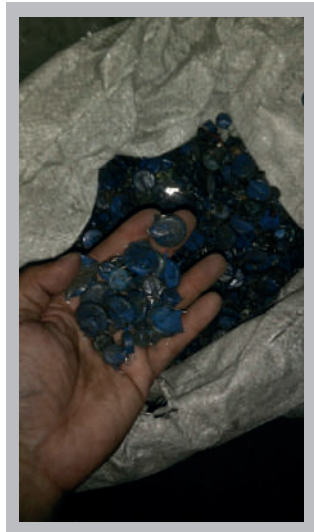

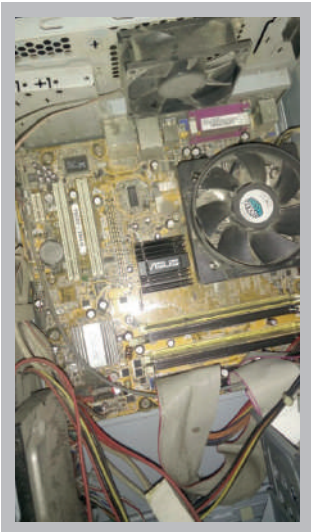

ETP

OUR EXISTING FACILITY

- ❖ Pcb recycling machine
- ❖ Shredder, magnetic separator ,conveyor, pulverizer, cyclone, vibratory sieve, metal and plastic separator,
- ❖ Dismantling tables
- ❖ Dust collection systems, dust suction hoods, dust collection bags.

RAW MATERIALS USED TO RECYCLE

OUR

CORE BUSINESS

Every day of the week our personnel perform the following main tasks in a professional and responsible manner.

- Asset Recovery
- Asset Dismantling
- Asset Scientific ways Recycling
- Advising our clients on Ewaste management and environmental issues.

THE 4 POLES OF RECYCLING

- For the first 3 years, your electronic assets have some remarket value, but remember that each month that passes, it depreciates even more.
- By allowing the devices to depreciate past 3 years, starts costing the company storage space. You are giving up space for old redundant electronics instead of things that are cost improving.
- All of those devices have important data on and keeping it opens the door to people getting access to valuable company information.
- A lot could happen to the storage area: Flood, Fire, Theft, Accident. These will effectively minimize the resell value should something happen whilst in storage.
- If you've been storing these devices because you don't know what to do with them, then contact E-WASTE MART RECYCLERS (hyperlink to contact us page). We are extremers in the IT recycling business, by offering a free collection for ANY AND ALL electronic devices, may it be obsolete/ repairable/ depreciated and or unwanted.
- We thrive on the Recycle and will go the extra mile to assist in keeping our environment clean.

THE

E-WASTE MINERAL

When e-waste is exposed to the heat, toxic chemicals are released into the air damaging the atmosphere this is one of the biggest environmental impacts of e-waste soil. Electronic waste can also contribute to many types of pollution.

A mineral is a naturally occurring, inorganic substance with a definite chemical composition and a crystalline structure. Some common minerals are copper, aluminum, polychlorinated biphenyls, plastic. Man uses minerals not only to make electronic devices such as Laptop, Desktop, Air Conditioner

With the growth of the electronic manufacturing industry and development of advanced extraction techniques, more areas are being identified and selected for extraction of minerals. This has led to concerns regarding the impact that mining has on the ecological health of the region and the people living in the area.

WHAT IS THE SOLUTION TO E-WASTE?

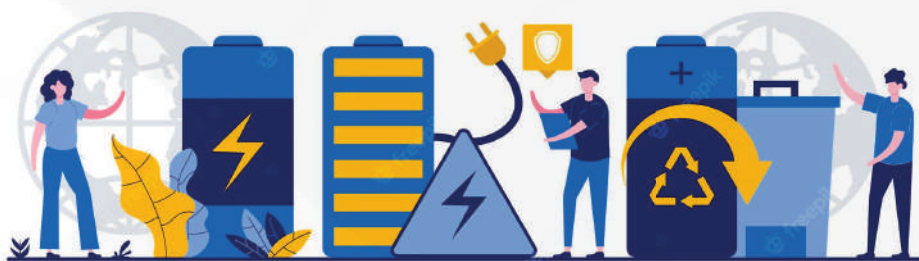

The waste majority of electronics can be recycled, and the items within them that can be recovered include plastic, steel, aluminum, copper, gold, silver, and other precious metals. Those metals can be given a second life, and that's why recycling is such an ideal solution to this problem.

BATTERY RECYCLING

Our battery recycling services include collecting, transporting, and recycling different types of batteries, including Lithium-ion, Nickel-Cadmium, Nickel-Metal-Hydrate, and Lead-Acid batteries. Our state-of-the-art recycling facility uses advanced technologies to recover valuable metals and plastics from the batteries. We also ensure that the disposal of hazardous material is done in an environmentally friendly manner.

Our battery recycling services provide a cost-effective and sustainable solution for the disposal of used batteries. By choosing our services, our clients can not only comply with the regulations but also contribute to preserving the environment.

Our team of experts can work with you to develop a customized battery recycling program that meets your specific needs, whether you are a large corporation, small business, or individual. Contact us today to learn more about how we can help you recycle your batteries safely and responsibly.

SAFETY BATTERY

BATTERY RECYCLING

OIL WASTE RECYCLING

Our oil waste recycling services include collecting, transporting, and recycling different types of oil waste. We use advanced technologies to recover usable oil, which can be processed and reused in various industrial applications. The remaining waste is safely and responsibly disposed of to prevent pollution.

Our oil waste recycling services are designed to meet the needs of businesses and organizations of all sizes, including manufacturing plants, car dealerships, and service stations. We can work with you to create a customized oil waste recycling program that meets your specific needs and complies with all regulations. Contact us today to learn more about how we can help you recycle your oil waste safely and responsibly.

WHAT

OUR CLIENTS SAY

BROOK FIELD

We want you to know that we are very pleased with the quality of service your company provides. We sincerely appreciate your responsiveness and the way you conduct business.

WE WORK

I just wanted to thank you for your speedy and efficient service. Your two staff members came by earlier and picked up the machine. Thank you so much for providing this service and allowing people to dispose of electrical waste in the correct way .

OUR CLIENTS

Business Standard

The Central Pollution Control Board (CPCB)

The Central Pollution Control Board (CPCB), the statutory organization, was constituted in September 1974 under the Water (Prevention and Control of Pollution) Act, 1974. Further, CPCB was entrusted with the powers and functions under the Air (Prevention and Control of Pollution) Act, 1981

The consent to establish is granted for a period up to commissioning of the unit or up to 5 year whichever is earlier.

We will be bound by our confidentiality obligation, towards our client's needs.

Our collections are usually laptops within 24-72 hours of initial contact. The only criteria is to have 10 or more items consisting of desktop PCs, laptops, monitors, servers and printers. If you have less than 10 items, please get in touch and we will do our best to help you. Avail our computer recycling services for old computers and IT equipment .

Maharashtra Pollution Control Board: MPCB

Grant of Consent to Establish under Section 25 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization under Rule 6 of the Hazardous & Other Wastes (Management & Transboundary Movement) Rules 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

The consent to establish is granted for a period up to commissioning of the unit or up to 5 year whichever is earlier.

We will be bound by our confidentiality obligation, towards our client's needs.

Our collections are usually laptops within 24-72 hours of initial contact. The only criteria is to have 10 or more items consisting of desktop PCs, laptops, monitors, servers and printers. If you have less than 10 items, please get in touch and we will do our best to help you. Avail our computer recycling services for old computers and IT equipment .
